

Warpstock 2023 - Call for presentations

You are invited to present at Warpstock 2023. Warpstock 2023 will be held December 1-3 at the Drury Inn & Suites Phoenix Airport in Phoenix, Arizona.

Warpstock is the annual conference for ArcaOS, OS/2, and eComStation users, administrators, and developers. Warpstock provides the unique experience of being in a room full of ArcaOS, OS/2 and eComStation users.

Warpstock lasts three days, from Friday, 9:00 AM to Sunday 12:00 Noon. The meeting is at a hotel near the Phoenix airport. There is a free shuttle to the hotel from the airport. The hotel offers complimentary breakfast and dinner, and Warpstock provides lunch and snacks. There are restaurants in walking distance from the hotel. The conference is designed to be easy to attend.

Visit the Warpstock homepage at <http://www.warpstock.org> and on the left side of the page, click on the Warpstock 2023 link. Then select Calendar from the event homepage. You'll see that the calendar is not yet full.

The full conference registration fee for this year's event is \$179, with a daily rate of \$119. There is an early-bird discount available for full conference registrations, so book before September 30 to take advantage of a great deal! Also note that we were able to negotiate a group discount of \$180 per night (single or double), though room availability may only be guaranteed through October 29. Registration fees do not include hotel accommodations. Please book your hotel stay online (<https://www.druryhotels.com/>) or by telephone: 1-800-325-0720 or 602-437-8400. Use the Group Code "10073101" to get the conference rate (King or Two Double: \$180/night). If additional nights are required before and/or after the event, you must use the hotel's telephone 602-437-8400 to book your stay. See the registration page for more details and to register for this year's event.

Our conference relies on people coming forward to present what they are doing in the OS/2 space. Warpstock tries to make it easy for you to bring a basic slide deck or video to Warpstock, and present your work. If you have built something interesting on OS/2, Warpstock attendees probably want to see it.

Register before September 30 and receive a \$30 Early Bird discount on a full conference registration or \$20 on a daily conference registration! Spouses/family members/guests/office mates attending sessions also receive great discounts, and non-attending guests are FREE. Students with valid student ID are always welcome to attend sessions at no charge, with full benefits!

Visit the Warpstock homepage at <http://www.warpstock.org> and on the left side of the page, click on the Warpstock 2023 link. Then select Registration from the event homepage.

If you want to present, please contact me at presenters@warpstock.org. Your presentation will help make Warpstock 2023 a success.

Presentations should be relevant to OS/2 users, including ArcaOS and eComStation. Presentations on the history of OS/2 are also welcome.

Presentations will be in person where possible. Remote presentations can be live from your location or you can submit a video and take questions from the audience.

Please include a presentation title and a short description to put on the website. If this is the first time presenting at Warpstock, please include a one-paragraph bio.
