

Attending Warpstock 2017 (travelling to Canada from abroad)

Check the following Government of Canada website for the requirements to enter Canada as a visitor:

<http://www.cic.gc.ca/english/visit/visas.asp>

This page will let you look up whether you need a visa or an Electronic Travel Authorization (eTA) based on your country of origin.

If you do require a visa or an eTA, check the following website for the procedures:

<http://www.cic.gc.ca/english/visit/apply-how.asp>

Note that citizens of the United States do not require either a visa or an eTA at this time. If in doubt please check the first website above to see if you need either of these documents.

Remember that it takes some time (two weeks plus) turn-around time for processing the document for you.

If you are asked for a "Letter of Invitation", please contact John Edwards, the Warpstock President, by e-mail at president@warpstock.org
