

Attending Warpstock 2017 (traveling from the US to Canada)

Check the following US Customs & Border Patrol website for travel information:

<http://www.cic.gc.ca/english/visit/apply-how.asp>

The US also has several trusted traveler programs available. Of interest to those traveling between the US and Canada is NEXUS. The NEXUS program allows pre-screened travelers expedited processing when entering the United States and Canada. Program members use dedicated processing lanes at designated northern border ports of entry, NEXUS kiosks when entering Canada by air and Global Entry kiosks when entering the United States via Canadian Preclearance airports. NEXUS members also receive expedited processing at marine reporting locations.

More information on the NEXUS program may be found here:

<https://www.cbp.gov/travel/trusted-traveler-programs/nexus>

Important Note: Both the United States and Canada must approve your application. Denial of an application by either country will prevent you from participating in the NEXUS program.

Remember that it takes some time (two weeks plus) turn-around time for processing the document for you. **APPLY NOW**
